TIGER WOMAN IN REVOLT PLOT Plan to Overthrow Honduras Admitted By Murderess

(BY HERMAN ROBLETO.)
TEGUCIGALPA, Honduras. — (United Press) — Clara Phillips, "hammer murderess," fled to Honduras in the belief that the government would be overthrown, and that she and Jesse Carson, her "husband," would emerge from the revolution as dictators of the country.

This was revealed by Mrs. Phillips today in her first story of her jail break and remarkable flight across Mexico, exclusively obtained by the United Press. Walking out of Los Angeles-co jail "under the nose of the guard," she escaped to Mexico, joined Carson, was captured by Mexican rebels, liberated, hid in a wild volcanic region and finally started for Honduras with a fund of \$50,000, while a steamer loaded with munitions followed her down the coast. But the plot by which the "tiger woman" was to have been set up as "the first lady of the land" was frustrated and she found herself in a cell, arrested for extradition to California, to serve her time for beating Mrs. Albert Meadows to death with a hammer in a fit of jealous rage.

MANY IN PLOT
Carson, in a statement to the Honduras authorities today, made a full confession of his part in the conspiracy to "tear down the existing government." He said many Americans were involved in the plot which was directed from Vera Cruz.

Mrs. Phillips also made a free statement of her part in it. She came here from Mexico, she said, in the firm belief that the revolution would be successful, and that unlimited power and money would be hers.

Starting her story at the beginning, Mrs. Phillips said: "My escape was easy. There was nothing sensational about it. I filed some of the bars of the prison, and quietly left, passing right under the noses of the guard."

"There were captured by Mexican revolutionists. We were held for several days, and we did not know what they intended to do with us."

"When we were liberated, the Mexicans left us at a place near the American border. We sought refuge in a wild, desolate volcanic region. It was peopled only by wild animals — no human beings or houses."

MANY KILLED IN STRIKE RIOT

Mine Workers Clash With Police in Germany

LARGE NUMBER WOUNDED

Walkout Brought About by Communist Agitators

DUESSELDORF — (Associated Press) — Rioting is in progress today in the Dortmund district. Several miners have been killed and others wounded in a conflict with the police.

According to reports to French headquarters here, 30,000 striking miners held a demonstration to Dortmund. The police in endeavoring to disperse the gathering, fired into the crowd killing several persons and wounding many others.

The angered crowds attacked the police, of whom many were wounded. Similar demonstrations occurred at the Scharnhorst mine nearby where several workmen were killed and others wounded by the police.

The miners' strike was brought about by Communist agitators on demands for higher wages and they now are reported to be trying to effect a general strike throughout the Dortmund area affecting 200,000 workers.

LIFE OF GIRL IS THREATENED

Told Over Phone "Revolver is Waiting for You"

A young man, believed to have been one of those who had been captured, threatened the life of Gladys Truesdale, 17, of 1221 S. Metcalf, Tuesday, she reported Wednesday.

She is employed at the home of Mrs. Bella McPherson, 217 S. Elizabeth, as a maid. Mrs. McPherson said Wednesday in explaining the girl's report to police about the girl.

The girl was alone in the home when the telephone rang and she answered.

"A revolver is waiting for you," was the response and before the girl had a chance to question the man further, the other hung up the telephone receiver.

The girl was frightened and got in touch with Mrs. McPherson as quickly as she could. Her home was watched by an officer on the beat to see that no one tried to force its entrance.

"I believe the person who called me is one who has been trying to go on with me," the girl said. "I have wanted his company, and told him so."

AUDITOR TO HUNT FOR BOND MONEY

Rupert Coming to Lima to Aid in Check of Books

Check of city books to determine if the sinking fund holds \$120,000, accumulated at the rate of \$6,000 a year since 1900 to pay off water work bonds, series B, maturing in 1935, will be made shortly.

David Rupert, former auditor, who entered a notation in the sinking fund cash journal that the money had been accumulated, is coming to Lima within two weeks and will go over the books with C. H. Churchill, city auditor.

Rupert in a letter to the auditor declared that "it is my recollection" that the money is held by the sinking fund. The money, according to Rupert, was invested by the sinking fund in bond issues which he later amortized. Rupert also made provision, he declared, for the \$6,000 levy to accumulate sufficient funds to pay off the bonds at maturity in 1935.

George L. Gableman state examiner who has just completed an audit of the city's books wrote the city auditor Wednesday as follows:

"You will recall that I told you I could not find any record of the source of this credit and in fact did not know of the notation in the cash book until a day or two before we completed the Lima examination."

"The reports of the last two examiners made no mention of such credit and that of Mr. Moriarty, who made the last special water works audit, could not be found."

Gableman suggested that Rupert be asked to check the books with the city auditor and that "in the meantime I would hold the whole adjustment in abeyance until that time."

COAL ASSOCIATION OPENS CONVENTION AT CINCINNATI
CINCINNATI.—Many of the delegates, who are in Cincinnati to attend the annual convention of the Michigan, Ohio and Indiana Coal Association, expressed the belief that coal prices are destined to advance in June. The main cause of the higher prices would be the shortage of cars, in the opinion of the delegates.

The convention opened this morning and will continue until Thursday.

STORM WRECKS 17 BUILDINGS

U. S. MAY RECOVER HUGE SUMS

Hundreds of Millions from War Contracts Likely

SAVING CLAUSE KNOCKED OUT

Decision Made in Disapproval of \$8,500,000 Claim

WASHINGTON. — (Associated Press) — The claim of the Bethlehem Steel Corporation for \$8,500,000 alleged to be due under war-time contracts has been tentatively disapproved by the shipping board's claim committee in a decision which was said today to have the approval of a majority of the board.

The decision was based on a formal legal opinion setting forth a new and sweeping interpretation of government contracts which, if sustained by the courts, will result in the recovery by the government of hundreds of millions of dollars paid out in settlement of emergency construction.

CONTRACT PROVISIONS
In brief the opinion held that a contract to the contrary notwithstanding a contractor cannot collect from the government under the so-called "savings clause."

The Bethlehem contract, like scores of other important war-time industrial agreements, provided that the company should receive a fixed fee plus a stipulated percentage of any economies it might effect which would bring the cost of the work below a set figure.

In the opinion of counsel consulted by the committee and affirmed by the department of justice, a contractor is bound in honor and at law to give the best possible results in performing the work he undertakes and to effect without extra compensation all possible economies.

Under this interpretation the \$8,500,000 already paid the Bethlehem Corporation as fee under its contract would be regarded as closing that contract and the large sums claimed as "savings" would have no standing.

Outside of any consideration of the validity of the company's claim, however, it was suggested today the board might offer to the Bethlehem company in lieu of any sums considered due it, a quit claim to the nearly \$10,000,000 improvements installed at three of the company's plants at government expense.

ONE DEAD, MANY INJURED

Damage to Property Estimated at Millions

GREENSBURG, Kansas. — (Associated Press) — One person is near death, more than a score suffering from injuries and more than 100 homeless as the result of a tornado which struck Greensburg last night. Damage was estimated at \$150,000. The tornado destroyed 17 houses and damaged more than a score of others, tore down light and power lines and plunged the city into darkness.

BIG PROPERTY TOLL
OKLAHOMA CITY, Okla. — (Associated Press) — Western Oklahoma is believed free from any further effects of Monday's storm after millions of dollars of damage.

The crest of the flood in the North Canadian river is believed to have passed Oklahoma City. Damage here was confined to lowlands.

A tornado that struck in the western part of Woods-co last night resulted in one known death. Another tornado in the Wichita mountain region late yesterday tore a path in the open country south of Elgin. No loss of life was reported.

MANY BADLY HURT
WICHITA, Kas. — (United Press) — A score of persons were injured, several perhaps fatally, and considerable property damage resulted from a tornado which struck Wichita and vicinity during the night.

The twister came from the west, sweeping almost everything in its path for more than a mile.

Houses, barns and refinery tanks were blown down and telephone and telegraph circuits put out of commission.

One child was reported killed at Greensburg, near here. A score were injured there, the report stated.

When the storm struck Wichita, three persons were seriously injured and a dozen bruised.

Mrs. Charles Miner, 70, who lived in a small frame building near here, was not expected to live as a result of injuries she received when her home was struck by the storm. With her husband, she was rescued from the twisted wreckage by neighbors. Parts of her home were scattered over a ten-acre field.

Mrs. Mary Hopkins, Greensburg, suffered a broken leg. Two children of T. C. Hall sustained skull fractures and may die.

The home of H. A. Hackert, nearly was left standing with the roof neatly lifted off by the winds. Hackert, his wife and three children, were preparing to go to bed when the lights went out.

Four 500-barrel oil tanks in the Santa Fe railroad yards were swept across fields. One landed across the tracks and was removed five minutes later, before a passenger train tumbled along.

WHO IS PICKING YOUR POCKET?

By IRVIN FISHER

Professor of Political Economy at Yale University
NEW HAVEN, Conn. — (Special) — Many stories are told about inflation in Europe. Here is a new one:

"Three years ago a Polish clothier wishing to retire from business, sold out his stock of 100 suits, each of which he had bought for \$100, for \$100,000. He had 100 suits left, and he sold them for \$100,000. He had 100 suits left, and he sold them for \$100,000. He had 100 suits left, and he sold them for \$100,000."

Whether or not he ever realized that the mark had fallen is a question. Probably not, if we may judge by what I observed when in Europe two years ago.

He probably was deceived by the money illusion and believed that his principal was unimpaired and that he had really received it back with interest.

To him the trouble did not seem to be with the mark but with the wicked "profiteers" who had raised the price of clothes. He would like to put them in jail but he would never think of stopping inflation.

We can see what the matter is because we are outside of Poland and think of the mark in terms of dollars.

But, while we marvel at his stupidity, we are making the same blunder of assuming that our own money is absolute.

Let's see how we stand: According to our weekly index number of the wholesale prices of 200 commodities, prices averaged at the beginning of this year 55, per cent above pre-war prices, or the dollar was worth 64 pre-war cents.

If some American clothier (taking clothes as representing the average commodity) had sold out his 100 suits in 1913 at \$20 per suit and put the \$2,000 into the savings bank, how would he have come out last New Year's?

Counting ten years' interest he would have about \$3,000. But clothes cost 56 per cent more, or \$31.20 a suit. So with entire \$3,000 he could not get back his original 100 suits, but only 86 suits.

Yet it never occurs to him that the dollar has changed! Its change has really robbed him of all his "interest" and four per cent of his principal besides, for he now has 36 suits instead of 100.

We need not go back of this year. When the year began the index number stood, as just noted, at 156. Now it stands at 164. Stated another way last January the dollar was worth 61 pre-war cents, while today it is worth 61 pre-war cents. One thousand dollars put in the savings bank last January was worth 610 pre-war dollars. Now it is worth only 610 pre-war dollars. Even adding four per cent interest, say 1-1/2 per cent of \$1,000 or \$15 (worth 15x.61 or

about 9 pre-war dollars), the total is only 619 pre-war dollars. He has lost the equivalent of 640 minus 619 or 21 pre-war dollars in spite of his interest.

He does not know that his pocket has been picked. What he has lost somebody else has gained. Yet that lucky person is not the pickpocket. The pickpocket is the dollar.

This is the story of inflation. It is the same story in America as in Poland. It makes a mockery of thrift.

Frederick Goodenough, chairman of Barclay's Bank, London, like Reginald McKenna, another great English banker and formerly chancellor of the exchequer, recognizes that money is not stable.

"I think, therefore," said Mr. Goodenough, addressing the Bond Club in New York on May 4, "that the whole saving community must be affected by fundamental changes in price levels, and that which they most want is stabilization."

JURY HEARS EVIDENCE IN SUIT FOR \$1,015.95 AGAINST LIMA TRUCK CO.

The accident occurred in 1917, when the streets of the city were buried to a depth of several inches under a coating of sleet and ice. The grinder slid to weigh 3,600 pounds, fell off the truck while being transported down an alley off W. Spring-st.

The crew slid the machinery the remaining distance to the destination over the ice. The truck concerns denies that it was in any way responsible, declaring the moving was under direction of the Lima Drill Press Co. heads. Members of the jury who are hearing the case are Mrs. Frank Shallenbourn, Mrs. Elmer Pratt, Mrs. J. B. It's Long Way To Sheikland, It's A Long Way To Go

Frank McCloskey, former member of the 197 Field Artillery 28th Division, arrived in Lima Wednesday from New York, pitched his pup tent and prepared to stay a day or two. McCloskey is travelling from New York to San Francisco on foot and is accompanied by Louis Zlotkin, former member of the 21st Division, and Barnett Leavitt, accompanying the trio, who they say are going around the world, are Rob dog; Thelma and Betty and Doc Guinea pig; Mary Richard, Billy and Jumbo, white rats; and Philly and Corsey, kittens.

The trio departed Coney Island in May, McCloskey said, and they plan to arrive in San Francisco some time in August. At San Francisco they intend to catch a boat for China and thence on to the Land of the Sheik.

McCloskey carries in a note-book a set of hieroglyphics which he declares is a message to Sheikh Yansas, who sheiks at Golconda, India. He is unable to read the message but it appears to be a love note from a New York Valentino disciple.

The three ex-musketees and the Swiss family Robinson accompanying them, average about 30 miles per day. Expenses of the trip are made by open air entertainments. McCloskey reports an increase of nine in the white rat family at Canton. The infant rats, being unable to withstand the rigors of the hike, were presented to a woman of that city.

CHUROS GIVEN MORE DAYS

Guyton Tries to Persuade John, Potter to Pay Fines

Glen V. John and Glenn L. Potter, chiropractors fined \$25 for practicing medicine without a license, may elect to re-enter the county jail for second terms when their cases come before Justice W. H. Guyton for final determination Thursday.

Justice Guyton held a long talk with the two practitioners Tuesday and endeavored to persuade them to pay him \$25 each, plus costs, and walk out free to continue their professional work.

He pointed out that if the fines are suspended the court must make some sort of condition. The condition that the court imposed was that the two promise to cease violating the law.

The court specified that the promise would cover only the statute requiring a license for practice of medicine.

He gave John and Potter until 2 p. m. Thursday to make up their minds. Following the court scene, the practitioners retired to consult counsel.

Both came to court prepared to go over to the county jail for a long and continued stay. The court warned them that the second time would be less of a novelty than the first 41 days spent behind the bars.

Urging that they be not too hasty, he has delayed matters two more days, on promises that neither would engage in practice during the period.

Guy Rober, Spencerville, implicated in the traffic in stolen tires uncovered by authorities recently, changed his plea. When arrested he pleaded not guilty. Wednesday, he came into court and admitted his guilt.

Judge Becker is withholding sentence.

GLENMORE SWEEP BY FLAMES

Section of Second Van Wert-co Village Has \$10,000 Loss

Coincident with the \$50,000 fire that laid part of the business section of Ohio City in ruins Tuesday, a \$10,000 blaze swept Glenmore, another town, ten miles away, late in the afternoon.

Three large stores and a number of smaller buildings was the toll of the fire at Ohio City, the ruins of which were still smoldering Wednesday. The Glenmore fire destroyed the three largest stores in the town, virtually the entire business section. Bucket brigades were futile. The flames leaping at will from one structure to the other.

Flames started in the Walter Schaad hardware store and threatened to wipe out the entire business section. The Schaad store, a grocery owned by Jacob Stigenbauer, a barber shop and a bakery were burned, it is reported.

Many buildings were huddled closely together and the village was without fire fighting apparatus. It is suspected by officials at Ohio City and Glenmore that the fires were started by incendiaries.

NEWS OF PUTNAM-CO

DEFENDANT IN 3 CIVIL SUITS

Ottawa Man Sued for \$3,000 Under Bulk Sales Law

Dale C. Agner, Ottawa, formerly in business in Continental, is named in three civil suits instituted against him by L. P. Crawford Wednesday in Putnam-co common pleas court.

He is sued on promissory notes in the total of \$3,000, under the bulk sales law and for alleged illegal transfer of real estate.

Wardner Morris, Continental, is named as a co-defendant with Agner in one of the suits, which alleges that the latter transferred to the former a half interest in the furniture and undertaking business in Continental while Morris was acquainted with the fact that the plaintiff held promissory notes against Agner for the purchase price.

Morris also did not obtain a list of creditors or adopt any other of the usual measures in a transfer of that kind, the petition alleges. The transfer, alleged in the petition to have been made to defraud creditors, was consummated April 15.

In this action the plaintiff asks that Morris be appointed a trustee for benefit of creditors.

Charles O. Piernan is named co-defendant with Agner in the third suit, which alleges that the latter is indebted to Piernan on the promissory notes and that a lot in Continental was transferred April 21 to Piernan, making him a preferred creditor to the exclusion of the plaintiff.

It is asked that the real estate conveyance be set aside and the property sold to pay Agner's indebtedness.

LAST HIGH SCHOOL GAME IMPROBABLE, COACH SAYS

Last baseball game on the schedule of Ottawa school will probably not be played, Coach Curtis announced Tuesday.

The final was to be played with Leipsic high school, but owing to the fact that the institution there has been closed for the summer vacation, athletic officials have written Curtis that the game is impossible unless extraordinary preparations are made.

Ottawa played three games, losing two of them to Columbus Grove and Leipsic. The team won from Columbus Grove the first time out.

COLUMBUS GROVE SECURES SCHOOL SUPERINTENDENT

E. F. Smith has entered into a contract with the Columbus Grove school district board of education as superintendent, at was announced in a letter Tuesday to County Superintendent C. J. Keinath.

The contract is for a term of three years, for the first year at \$2,150, the next \$2,200 and the third \$2,300.

The board agreed on a nine-months' course through the district. Smith said, necessitating revision of the study course in rural schools of the district.

All teachers were re-hired except in the rural schools. Ray Bowman, high school graduate, will become teacher at the Basinger school, from which Ralph Sutter was transferred to the Gutman building. Martha Lora will be transferred from the Sheets school to the third grade in Columbus Grove, succeeding Mary Harbo, who will leave. The Sheets building will be abandoned because of its unsatisfactory condition.

Country Treasurer D. R. Hinkle will tell where the farmers' taxes go, Friday evening at DuPont. Other interesting features, including singing by Miss Hammon's food club, and showing of lantern slides on the cold park methods of canning will be on the program.

Poultry keepers of Putnam-co have demonstrated that it pays to feed milk to young chicks. They have had the best results among raisers of young chicks, especially those who started chicks on milk and kept them there.

Putnam County Agent Henceroth has received a supply of new bulletins just printed on the subject of chick feeding, for distribution.

A remarkable specimen of tubercular liver, spleen and intestines is on display at farm bureau headquarters at Ottawa.

In order that greater service may be given people of Putnam-co, a large bulletin board has been erected in the main entrance to the courthouse. On it is kept posted timely agricultural information, meeting notices, new bulletins and other matters of interest.

Some new bulletins just received treat duck raising, turkey raising, blackhead in turkeys, tomato growing, tomato diseases in Ohio, plans for poultry catching crates, alfalfa growing and bee-keeping.

Swat or soil roosters as soon as hatching is over, separate and fasten young cockerels as broilers, feed a much all summer, use plenty of milk and keep down lice and disease, are some of the things advocated by G. S. Vickers, state poultry specialist, in his visit to Putnam-co.

Lantern slides on the cold park method of canning and injurious insects will be shown at the Union-Ty farm bureau meeting at Kalida May 29. Club girls will sing.

PUTNAM FARMERS PLAN TO VISIT WOOSTER STATION

The morning will be spent in tours of inspection to wheatfields, under direction of the station staff. The crowd is divided into small groups so that careful study can be made of various plots.

The trip from Putnam-co can be made in five or six hours. Further information is available at farm headquarters.

DEFENSE STARTED

Rail Company Asks Damage Suit be Taken to Federal Court

Opening guns were fired in the defense of the B. & O. Railroad Co. in a \$30,000 damage suit filed by Michael B. Imm, Ottawa auto dealer, when a motion was filed Wednesday to remove the case from Putnam-co common pleas court to the federal court at Toledo.

Federal jurisdiction is sought, the motion recites, in view of the fact that the railway company is incorporated under laws of Maryland and Imm is a bonafide resident of Ohio.

The company expresses willingness to give security for removal of a copy of the records in the case and to pay all costs if the court holds that it has been wrongfully removed.

Imm alleges the company permitted a cut of cars to remain on the Locust-st crossing in Ottawa more than the five minutes allowed by law sometime after midnight on March 26. He ran into one of the cars with his auto, resulting in injuries to himself and two others, he alleges.

SOME BABY!

Awriter in a poultry journal states that if a baby grew as rapidly as a young chick it would weigh 250 pounds at the end of two months.

The average mother thrills with pride as she tells how "Little Precious" is gaining four ounces a week. If it grew like Little Rhode Island Red or Plymouth Rock wouldn't she boast?

Anyway, it isn't much wonder that chicks must have careful attention to keep them growing as they should.

DELPHOS NEWS

POLICE CHIEF IS DENIED RAISE

Delphos Council Rejects Plea of Keires at Meeting

FEARS RESULT OF ACTION

Secret Ballot Fails to Give Officer Financial Relief

Delphos Chief of Police, H. A. Keires, will be forced to struggle along on his present salary of \$100 a month, for some time, according to action taken Tuesday night by members of the council.

Chief Keires presented an ordinance to the council asking his salary be increased. The amount of the increase was left to the council.

When the president of the council called upon the members to take a stand on the proposed action, Councilman Ben Davis stated that he thought the chief should be granted an increase. All but two of the other councilmen agreed with him, and they refused to commit themselves on the subject.

For many minutes not a word was spoken, no one caring to take the initiative and name the amount of the raise. Finally, it was suggested that Keires leave the room and maybe some of the councilmen would offer some solution.

MORE DEMANDS FEARED

When Keires had left, the council chamber was in a buzz. Some thought that giving him a raise would cause other policemen and firemen to ask for a raise. Most of them agreed that the city was running on borrowed money and could not afford to raise his salary at the present time.

During this discussion, no one named an amount they thought he ought to receive, except that the office of Sanitary Police carries a salary of \$22 per month and this job formerly was combined with the chief's job. When the present chief took the position from the relief jurisdiction and gave it to the relieving chief, Louis Oldberg.

Finally a plan was hit upon to take a secret ballot on paper, add up the seven amounts at five and divide seven, striking a balance of the amount the raise should be.

Win the ballots were counted, four were marked \$100, his present salary, two were marked \$115 and one was \$125.

The matter was settled then and there for the next six months as the ordinance would have to be passed Tuesday night to be in effect before July.

DELPHOS COUNCIL ORDERS PAVING OF E. FOURTH-ST

A delegation of Delphos citizens, headed by W. J. Steinle, cashier of the Old National bank, presented a petition to the council Tuesday night, asking that E. Fourth-st be paved from Main-st. to within 200 feet of the Jennings-rd.

Minutes of former meetings showed that legislation for this improvement was given its first reading February 24, 1920. It was given third and final reading and passed by council, all members voting yes at the meeting Tuesday night.

No try of paving was designated, but width of the street is set at 24 feet, except between Main and Washington-st. where it is to be 50 feet. The ordinance was pigeonholed after its first reading when a protest from property owners on the street was presented.

DELPHOS CITIZENS ASK WIDENING OF PAVEMENT

A petition was presented to Delphos council at its meeting Tuesday night by property owners along N. Main-st. asking that the street, which is paved with concrete, be widened from 16 to 30 feet. The petitioners are 16 feet wide at some places and their stretches are 30 feet wide. The petition states that the property owners will pay all but the alleyway street intersection costs. The petition was prepared by William Forns.

Councilman Ben Davis told members of the council the concrete pavement was paid for out of funds received from Allen-co. He suggested they be notified that the necessary legislation will be passed on condition they stand all expense of the paving.

The petition was turned over to the improvement committee with instructions to return it to the property owners and explain the conditions and ask for a new petition.

PAVING PROTEST INEFFECTIVE

Delphos Council Votes for Improvement of Alley

Delphos city council enacted an ordinance Tuesday night for paving the alleyway between Main and Washington-sts., from the Pennsylvania railroad to E. Third-st., although a protest signed by a majority of the property owners affected was presented.

A delegation of backers of the petition attended the meeting in a body. The first one to talk was William Alspaugh. He told council in his opinion it should pave the streets first and then the alleys. He said that the crossing at First-st., which is unpaved, would always be muddy and a paved alley would not be complete with that gap in it.

Charles O'Neill, another property owner whose land abuts on the alley said: "Who pays the taxes? Not council, so leave the matter of paving to those who pay the taxes. Why should we pave the alleys and let the sidewalks go to pieces? No one uses that alley but the express company and the postoffice trucks."

Councilman Ben Davis, who introduced the ordinance, told the committee the paving of the alley would take some of the traffic off Main-st., improve the health of the city and declared it to be a necessary improvement. Other councilmen stated they agreed with Davis, when called upon to express their opinion.

It was then moved by Davis and seconded by Peiffer that the ordinance be passed. All members voted yes on the motion.

COMMISSIONERS COMPLIMENTED

ACTION taken by the Committee of 200 in making formal requests of Colonel John A. Harley and Harry L. Breckenridge that they again stand for nomination and election to the office of city commissioner, is a high compliment paid to these men by the body which framed the original charter for the commission-manager form of government for Lima.

Big projects have been undertaken by the commission and the city manager. One of the most important of these is the building of a system of sanitary sewers and the installation of a sewage disposal system, absolutely necessary for the future health of the people of this city. One of the first things taken up by the commission, the biggest project in its advance program, was the working out of plans for sewage disposal. It is the wish of the Committee of 200 that the present body remain intact until that task is completed.

If Commissioners Harley and Breckenridge are again chosen by the people, they will have four year terms. However, there will likely be other candidates. In fact, one other has already announced himself as a seeker of place in the chamber of deliberation and action of the city. It is up to the people to decide.

Whether the approval of the Committee of 200 given the present incumbents whose terms are soon to expire will be shared in by all the people, is for the people themselves to decide. The candidacy of the present commissioners, for re-election will doubtless be a test of the form of government itself, as much as a determination of the popularity of the men who are standing for re-election.

BRICKBATS AND BOUQUETS

WHILE W. H. CAREY of Bellefontaine, president of the Ohio State Eclectic Medical association, heaved verbal brickbats at the heads of chiropractors and faith healers operating in Ohio, he admitted in the same address that the reason for the increase in their numbers lies in the direction of the medical profession failing to satisfy the public.

These are the exact words of Dr. Carey. While he flays the practitioners who are under the fire of the Ohio State Medical board, he has the courage to point out to his fellow practitioners in the medical profession that they are at least in part to blame for the growth of other forms of healing.

Borrowing again from the precise statements of Dr. Carey: "We do not avail ourselves of our resources; we do not keep abreast of the times. . . . Organized medicine is lacking in strength, and the respect that was ours is disappearing." He refers to what he terms the "weaknesses of the profession."

Dr. Carey's arraignment of his own profession, while striking at others, cannot be taken otherwise than also a bouquet for those whom he attacks. He admits their methods are making inroads on the medical profession. Dr. Carey may be right in his contention in toto; he probably is. However, it does not appear altogether fair for those men and women who have given years to the study of the medical profession. No class of persons are more conscientious than are the healers of the body.

One other thought expressed by the Bellefontaine man opens wide the avenue for deep thinking. Rather than waiting for disease to develop and then battling it, he would have the use of preventive medicines adopted. The future of medicine lies in this direction, he believes.

O O O O O

SUIT FOR SEIZED LANDS

LAWYERS are smacking their lips at the 750 million dollars which the Sioux Indians by court suit, demand from Uncle Sam as damages for seized lands.

Attorneys who are handling the case estimate that it will take from 5 to 10 years to fight it upward thru the courts. They refer to appeals, of course, and the final battle in the United States Supreme Court. With that much money involved, 10 years is a conservative estimate.

If the Indians happen to win this case, they might go on and sue for the total of "seized lands" taken from them by their white conquerors. How much? About 300 billion dollars, our entire national wealth.

When the Indians had America, it wasn't "worth" a dime a square mile. Now it is \$100,000 a square mile.

The difference between those figures represents improvements by the white man. Just like real estate—worthless in itself, value is altogether in human activity that takes place on it or nearby. If the white man and his civilization left America and the old-time Indian could return, they'd be glad to trade large chunks for a cask of brandy or a peck of beads again.

PERSPIRATION

According to some magazines sweating is a very unladylike function and no gentleman would ever be caught at it.

Be that as it may, a man has to do some sweating somehow somewhere to keep as well as can be expected and as thin as symmetry demands. It is all very well for a man to live by his wits, which means to let somebody else sweat for him, as Tom Sawyer while-washed his aunt's fence, provided one arranges a time and place in one's daily program to do a little sweating. This duty of sweating is like wearing suspenders. A man doesn't wear his suspenders in an obtrusive manner nor affect garish colors any more, but he may wear 'em when he is fully dressed, with an air of quiet assurance.

It used to be quite the fashion, and still is, to visit a bath or some such place and have a vicarious or passive sweat to "sweat the poisons out." Folks who take such a notion seriously have probably not been attentive to the study of physiology in school. One may sweat and sweat, thru artificial stimulation, but it is just water with a pinch of salt, nothing in the nature of poison. The fancied benefit obtained from such sweating is imaginary, or due to rest and sleep, certainly not attributable to the elimination of any poison.

Active sweating is a different story. I do not mean to say that

when one sweats thru physical activity there is any appreciable amount of poison or waste matter of any kind eliminated. But active sweating is associated with a marked increase in metabolism, the internal combustion or oxidation process, that assuredly does burn up and render innocuous a considerable amount of retained waste matter which might otherwise act as a poison in the system.

The man who can and does indulge daily in sufficient physical activity, work, play or exercise, to start active sweating, keeps a grip on health which nothing else will give him. I have in mind particularly the sedentary man, say a clergyman, an editor or a lawyer. Just how much exercise do such men require, assuming they are not superannuated or broken down? Well, a fair average tonic dose is about two miles of oxygen on the hoof three times a day, or six miles in one dose, with the pace sufficiently brisk to induce some sweating. The form of exercise is immaterial, so it induces sweating. The sweating is the gauge to go by. To be sure it takes considerable wealth to indulge in the amount of oxygen I have designated. For others I suggest a substitute which is not nearly so good as oxygen on the hoof, but much better than nothing, the New Brady Symphony, a system of room exercises which a man may do in 15 to 20 minutes a day.

Notable Cast in "Souls for Sale" at Lyric

"SOULS FOR SALE", adapted and directed by Rupert Hughes from his novel of the same name, is appearing all week at the Lyric theatre in one of the biggest and most important films of the season and is produced on a bigger scale than any other. He has consciously set a theme peculiarly adaptable to the film and capable of a broader and more spectacular treatment than he customarily gives to his themes.

Viola Dana in "Love in the Dark" Coming to Sigma

ONE of the attractions booked to be shown at the Sigma theatre is "Love in the Dark," the new photoplay starring the veteran Viola Dana. Those who have seen the photoplay pronounce it an extraordinary production and one of the most enjoyable comedy-dramas of the present season. It is certainly a highly exciting motion picture, and in it the interest never flags.

"Love in the Dark" tells the story of a girl who is adopted by a member of a gang of crooks. She is engaged to take care of a little Red, a four-year-old youngster. Her natural curiosity leads her to discover many things about the woman whose ward she is, and the plot complications enable her to expose a crook who is plotting the son of a kindly miser who has adopted her and Red. Moments of powerful drama and situations of genuine humor make this picture a delightful one through.

Harry Beaumont has directed the story, which J. G. Hawks adapted from the original narrative by John Toroso. John Arnold was the cameraman. J. J. Hughes was art director.

The cast supporting Miss Dana includes Gloria Swanson, Theodore Roberts and Ralph Graves will be seen.

BRIDES LEARN TO BAKE

Young brides, who have scarcely emerged from the "burned biscuit" stage of matrimony, are not the only women who are profiting from the demonstration of what can be accomplished through the use of modern kitchen equipment, which is being given at the Rowlands Company Store, corner Market and Chalmers streets.

Nor are these recent brides the only women who have crowded their way into the store. With them have come their mothers, mothers-in-law and other women who have presided over the culinary department of the household for years.

The Rowlands Company has practically been turned into a restaurant since the demonstration started, for the cook in charge has been kept busy from nine until five every day turning out as samples pies, cakes, soups, biscuits, bread and other foods and delicacies to show that proper kitchen equipment means better food, prepared with less effort.

The domestic science demonstration, which is being given in cooperation with the makers of fourteen nationally-known food products, will be continued throughout the week.—Adv.

GOOD LOOKS GOOD HEALTH

WENDELL'S SALTS, AMBITION BRAND—That's the answer. Some of you ladies who read this may have complexion discolored by liver spots and discolorations. If this is the case, don't worry about it, and don't use face lotions, just go at once to the nearest Drug Store and get a large bottle of **WENDELL'S SALTS, AMBITION BRAND**, for only sixty cents. It will clear your complexion by helping to drive from your system the poisonous uric acid that is affecting your liver, slowing hard kidneys. A poor, rough, mottled skin isn't due to the sun or weather, but to an upset condition which uric acid usually causes. Go to the root of the trouble. Destroy that and your good looks and health will return.

FOREMOST among the meetings of the different bridge clubs of the city on Wednesday was the meeting of the Wednesday Luncheon Bridge club at the Lima club. Mrs. M. A. Wagner was hostess to the club members and a few guests at a one o'clock luncheon in the private dining room of the club. A platter basket, filled with various kinds of spring flowers, made the table most attractive. Following the luncheon, Mrs. Wagner invited her guests to her home, 442 S. Charles-st., where four tables were filled for the bridge games.

Guests of Mrs. Wagner, other than the members of the club, were Mrs. Frank Hill, Mrs. Walter Jackson, Mrs. J. C. Nagleson and Mrs. Frances Durbin.

At the Elks home, members of two bridge clubs enjoyed their semi-monthly gathering. Mrs. Glen R. Butler and Mrs. F. C. Blake were hostesses to the members of the Wednesday Matinee Bridge club with a one o'clock luncheon-bridge and Mrs. William Neuman and Mrs. E. J. Currie presided at luncheon-bridge, entertaining the members of their bridge club.

Presented by Mrs. Harry Macdonald, Miss Dorothy Stolzenbach, daughter of Mr. and Mrs. J. N. Stolzenbach, W. As an encore, this gifted pianist played Chopin's "The Minute Waltz." Miss Stolzenbach was assisted by Mrs. Bernadine Diamond, cellist; Mrs. Glenna Dunifon and Miss Marietta Day, violinists, and Mrs. Macdonald, pianist. An informal reception on the mezzanine floor of the Argonne followed the recital.

USES FOR BACON FAT

Bacon fat has so much merit that not a drop of it should be wasted. The French use it in salad dressing and like it better than oil for that purpose. It may be the shortening for gingerbread or it may even be used to enrich biscuit. There will be no bacon taste to the biscuit unless you have let the fat become browned.

MOMENT, PLEASE!

Now we know you won't bawl out the operator when you're telephoning Havana, Cuba. Senorita Camilla Fernandez Remos, the operator who will probably handle your call, is about the most popular girl in the island republic.

SUSIE SMART'S ADVICE

Dear Miss Smart:

I WROTE you a few days ago and failed to hear from you concerning E. W. I've been waiting.

Now, Miss Smart, put yourself in my place in this case. Perhaps I did not make myself clear and the letter did not deserve publishing or it never reached your office. If so, pardon this letter. I kept putting it off, thinking perhaps you had more letters than you could possibly publish. Every day the minute the paper came, I would look for your column but in vain. I could not find a trace of my letter.

Miss Smart, you have helped so many others. I do hope you will help me. I am a respectable young man 21 years of age. I have good looks, brown hair and rather good teeth. What I want to know are there any respectable girls around? There are many girls as long as you speak honestly to them and show them a good time, but I don't believe in throwing money away. I appreciate a good time in a respectable way.

I know there are nice girls around Lima, but I only have the chance of meeting them. If they could only find me, I would be very glad to see them. I try not to get far behind.

In your second letter, you mentioned E. W.'s letter. Did it appeal to you? Is she the kind of girl you are looking for? E. W.'s home is in Columbus Grove, but I have her address, so if you will send me yours, I will forward E. W.'s name and address to you. Do you attend church? Don't you meet girls and young women there who interest you? Don't begrudge the money you spend on girls, for when you find the girl you enjoy being with, you will want to spend money for her pleasures, at least a moderate sum.

Dear Miss Smart: I have such enlarged pores that I am ashamed of them. I always wash in cold water after going away to work, but it does not seem to help much. Would you please give me a remedy for this?

To reduce conspicuous nose pores, use this treatment: Wring a soft cloth from very hot water, immerse it in a good facial soap, then hold it to your face. When the heat has expanded the pores, rub it very gently with a fresh lather of soap. Repeat this hot water and lather application several times, stopping at once if your nose feels sensitive. Then finish by rubbing the nose for 30 seconds with a piece of ice.

Dear Miss Smart: Is a girl of the age of 13 old enough to have a boy friend? Is a girl who is 14 years of age old enough to have a boy?

What are the meanings of the following names? Raymond, Agatha, Frances, Patrick, Helen, Magdalene, Patricia, Regina, Mary, Agnes, Catherine, Paul, George and Carol?

How is my writing?

UNKNOWN

I do not think a girl is too young at 16 to go out occasionally with boys her own age to a school party or some affair of that kind. However, a girl 16 is too young to have dates every night of the week and to go to dances and stay out late. Yes, a girl 14 years of age is too young.

Raymond means wise protection; Agatha means pure; Frances means free; Patrick means noble; Helen means light; Magdalene means good gift; Patricia means noble; Regina means admirable; Mary means bitter; Agnes means pure; Catherine also means pure; Paul means little; George means a landholder and Carol means strong.

Good.

Rhubarb and strawberries cooked together make an excellent conserve. When strawberries are not first-class they may be made delicious this way.

If you steam left-over chops or steak they will be almost as good as when first cooked and will not be as dry as when they are baked or rebroiled.

Rice Croquettes With Strawberry Sauce

Pick over and wash one-half cup of rice. Cook in one-half cup of water with one-fourth teaspoon of salt for five minutes. Place the dish over water, add one and one-half cups milk and cook until the rice has absorbed the milk and is tender. Add one tablespoon butter and slightly beaten yolks of two eggs, and cook for five minutes. Spread in a pan to cool.

Have the whites of the two eggs slightly beaten and two tablespoons of milk or water added. Have dried, sifted bread crumbs ready.

Shape the rice mixture into balls, two and one-half inches in diameter, or into cylinder shapes two and one-half inches long. Roll these in the crumbs, dip in the egg, roll in crumbs and fry in deep fat until a golden brown.

Serve with sauce made as follows:

Beat until creamy one-half cup of butter, add one cup powdered sugar and one cup strawberries. Beat all until very light, then add a few drops of vanilla.

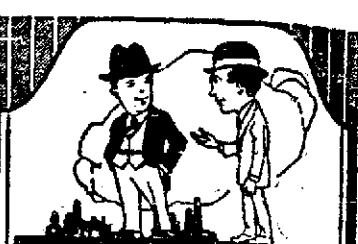

SOAP JELLY

Bits of soap which accumulate either in kitchen or in chambers may serve another term by being set to boil with a little hot water. For the kitchen let the soap remain in a jelly which is very convenient for scrubbing or laundry.

MEDIUM BROWN HAIR Looks best of all after a Golden Gilt Shampoo.

THE BEAUTY OF HEALTH

Newspapers and magazines are devoting columns to magic or overnight beautifiers. There is a beauty in health that is far more attractive to men than mere regularity of features or made-up complexion. Health should be the first essential of women who want to win and hold admiration, respect and love. At the first indication of ill health as indicated by dark circles under the eyes, a yellow complexion, headaches, backache, pain in the side, nervousness, irritability and melancholia, women should take Lydia E. Pinkham's Vegetable Compound, the standard remedy for woman's ills, which has been proven to help 98 out of every 100 women who try it.—Adv.

JIM MUILEN, Chicago boxing promoter, will be arrested at the ringside of next Tuesday night's card in Chicago as a test of the Illinois boxing law. It has agreed not to enjoin the police from stopping the bout and they have agreed to let the fight go on. But he will be arrested and tried in order to get a decision from the state supreme court on the law.

NEW YORK — Jack Remaut, Canadian heavyweight, knocked out Joe Lohman.

LEWIS CINCHES RIGHT TO WRESTLING TITLE

MINEAPOLIS, Minn. — Ed (Strangler) Lewis of San Jose, Calif., clinched his right to the world's heavyweight wrestling championship when he defeated Stanislaus Zbyszko, the aged Pole from whom he took the title, in return engagement here Tuesday night. Lewis used his headlock to win one fall in 35 minutes.

THIS YEAR'S English classic, starting June 25 at Wimbledon, will terminate the so-called "world's" championship. Hereafter the world's championship will rotate among the leading tennis nations.

FIGHTERS TRAINING HARD FOR BOUT HERE

Jeakle To Fight Ward

Bobby Ward and K. O. Jeakle will both do stiff training work later this week for their bout at the Memorial Hall next Monday evening under the auspices of the Lima Gym Club.

The two lightweights are in the pink of condition at their two training camps and following the battle Monday with Sid Barbarian, Ward's manager, Mike McNulty, numerous that as fighter is in the best of shape.

The fight with Barbarian at Detroit this week was a whiz according to those who witnessed struggle. The St. Paul boy lost according to the newspaper decision but nearly all the fans, according to McNulty, gave him a shade or at least a draw.

Ward posted Wednesday and will start his regular training Thursday for next week's fight. Jeakle is an even more dangerous lightweight than Barbarian, many followers of the squared circle believe, and for this reason the local bout should measure up to all expectations.

Sam Jordan, manager of Jeakle, in a letter to the sporting editor of the News, said that his boy has improved 100 per cent since appearing here the last time.

He has been fighting some of the best boys in the country, including Bud Christino, K. O. Mars, Pete Hanover, Benny Valgar, Tommy O'Brien and Bud Perrill.

DODGERS GET DONOHUE

The Giants continued their juggernaut journey Tuesday by blasting St. Louis 7 to 3.

Profiting by their easy pickings while the Cardinals were having the fight of their lives, Pittsburgh grabbed a stronger hold on second place by again downing the Philadelphia 12 to 6. Cy Williams, Quaker center fielder, made his fifteenth home run of the season.

Brooklyn climbed into leadership of the second division 9 to 6, by showing entire disrespect for Pete Donohue, the Cincinnati twirler who led the league last year. Chicago defeated Boston 8 to 2.

NEW YORK — "Pillette won't be effective next season." That is what American League ball players kept saying during the early part of last year while the Detroit recruit was going great.

During the last two months of the 1922 campaign, Pillette was just an ordinary pitcher. The deception that he possessed early in the year had vanished.

American League players pulled the "I told you" stuff every time the Detroit was defeated during the last end of the race.

Others more kindly disposed insisted that Pillette was all in as the result of too much work. At one stage of the race he was the only Tiger pitcher that could win and Cobb called on him often.

Pillette's best ball is his fast one that breaks down and out. The ball is only effective when kept low. If waited out it is invariably a ball. Opposing players wise to the fact late in the season forced Pillette to keep the ball up, which worked to his disadvantage.

In the spring games in the south Pillette has been hit hard in practically every start.

Wonder if the dope of the American League players that Pillette would not be nearly so effective this year is going to come true?

Yanks End Western Trip

The New York Yankees closed Tuesday their most successful western invasion since Miller Huggins became their manager, and a great deal longer than that, and after dealing Wednesday, as do five other American League clubs, go to Philadelphia for a tussle tomorrow with the Athletics, their nearest rivals.

Relatively the Yankees and Athletics are about on a par as 1923 sensations but the performances of both were wholly unexpected. Connie Mack has not had as much success in the west as had Huggins, but considering what was expected, he has accumulated as many headlines.

With a blast that brought him within one mark of the present league leadership in his specialty, Babe Ruth closed the Yanks' western tour breaking up a 15 inning duel with the Chicago White Sox by knocking the ball out of the park with Joe Judge on first. The score was 3 to 1.

NINE IN ROW
It was the ninth straight victory for the Yanks and gave them 12 out of 13 games in the west. They won two from Cleveland, took three and lost one in Detroit, won four in St. Louis and three in Chicago. Ruth now has 8 homers this year, one less than Ken Williams of the St. Louis Browns.

The Athletics lost their second straight in Detroit after winning the first, 4 to 2 and suffered the temporary loss of Sammy Hale, third baseman, who broke a thumb in practice. Cleveland kept half a notch ahead of Detroit by scalping the Boston Red Sox 3 to 2, and will be on the heels of the Athletics if they repeat in the only game in the league today. Washington dropped the odd game of the series to St. Louis, 12 to 7.

Shortstops Make Most Errors

B league shortstops make more errors during the course of a season's play than do players in any of the other positions. In fact, they make on the average about twice as many as do their various co-workers.

Last year, Emory Rigney of the Detroit Tigers turned in the most miscues in the American League. He made 50, one more than the total hung up by Joe Sewell of the Cleveland Indians. All told, Rigney accepted 755 chances and Sewell 757.

Why do shortstops pile up the most miscues? One reason is that a shortstop will, as a rule, have about half again as many chances in a season as will the third baseman. Along with the second sacker, he is right in the center of the inner defense. There are double plays that must be executed hurriedly. There are thrown balls from the catcher to handle and be put on attempted base stealers.

Some short fielders accrue more "boots" than do others. Especially is this true of a fast man because he can cover more ground and is consequently apt to make more errors for he takes more chances. But his fielding average will be as correspondingly high as a slower player afoot for he will accept more chances.

Donie Bush, when with the Detroit Tigers, was this type of shortstop. Bush went after everything possible. Consequently, his error column figures were always high but he made up for this by cutting off many base hits which other fielders wouldn't have got.

GOLFER MAKES HOLE-IN-1 AT SHAWNEE CLUB

Lima broke into the "hole-in-one" golf club Tuesday when Sinclair M. Dean, a young golfer, playing on the Shawnee Country Club course, dropped the rubber ball into the cup in one stroke.

The shot was made at No. 11, the ball landing about one yard in front of the hole and rolling forward into it.

The "hole-in-one" club was originated by a man named Burke in

Newark, Ohio, several years ago. Dean's card for the second nine was 38, an amateur record for the 1923 season so far.

LIKE DIFFERENT MAN, HE SAYS

He Relates How the Plant Juice Medicine Restored Him to Health

CAN'T PRAISE IT ENOUGH

"I can't praise your Plant Juice medicine enough for it has made a different man out of me and I gladly recommend it," said Mr. A. J. Franks, of North, Baltimore, Ohio, while talking with The Plant Juice Man recently.

"I suffered an attack of the 'flu' and never got over it right," Mr. Franks continued. "I suffered with my back and my eyes would swell up and the water would run down my cheeks. I could hardly eat anything at all because of the misery afterward and sometimes after eating I would bleed so that I could hardly stand it. I couldn't rest right at night."

"I am glad to say that since I have taken your Plant Juice I can eat anything without the bloating or gas. I feel strong again and can do a good day's work now. I am 72 years old, but since taking Plant Juice I have been able to get out and spray a hundred trees a day. I will say that your Plant Juice has made a different man out of me and I can't praise it enough."

Plant Juice is a natural medicine, made from roots, herbs and leaves, and many people say it seems to act like magic on the system. In just the past year, Plant Juice has given relief in several thousand cases of poor health in this section of Ohio alone.

The Plant Juice Man is at Hunter's drug store, 49 Public Square, Lima, where he is daily showing the local public and introducing and explaining the merits of this remedy. Free samples given.

Plant Juice is sold also in Lima at Hunter's drug store at Main and Wayne streets, and at the Arkonne drug store, opposite postoffice.—Adv.
